ROCK MACHINERY CO.,LLC

YOUTH APPRENTICESHIP

WHO WE ARE

Founded in 2004, with over 125 years of combined field expierence, Rock Machinery is a prominent distributor for many quality brands of crushing, screening, and specialty products used in the aggregate, mining, and recycling industries. We are headquartered in Allenton, WI and have satellite branches in Osseo, WI and Woodburn, IN. The experience you want is here with the expertise of our team.

ROCK MACHINERY & YOUTH APPRENTICESHIP

Rock Machinery is commited to hiring high school juniors or seniors for a one or two-year apprenticeship. During the apprenticeship, the student will have a Rock Machinery mentor who will ensure student is meeting the standards within the YA program. The YA Program is coordinated locally by regional consortia and overseen by the Wisconsin Departmenof Workforce Development (DWD). The skills you learn will take you to the next level, ready for your training after graduation. Interested graduates are encouraged to continue on-site training with our paid training partnership with Moraine Park Technical School.
